

PRODUCT GUIDE — FOR PARTNERS

Bundles — Save & Scale

Two channels, one price.

What it is

The fastest growth comes from channels working together. Our bundles combine our most popular services at a lower price than buying them separately — so a business gets more growth for less, all managed by one team.

How it works

1

Combine

Pair the channels that compound

2

Save

Lower than buying separately

3

Align

One team, one strategy

4

Grow

Faster results, less overhead

Who it's for

- ▶ Businesses wanting more than one channel
- ▶ Owners serious about real growth
- ▶ Anyone tired of juggling vendors
- ▶ Brands ready to scale, not dabble

How to pitch it

- “ Social + SEO — \$1,800/mo, saves \$400 every month.
- “ Website + Social — \$14,000 for a full launch year.
- “ Complete — \$40,000/yr, full-stack growth, fully managed.

Common objections

“Why bundle instead of one service?” — Channels compound — content feeds search, search feeds the site. Together they outperform any one alone.

“Is it a big commitment?” — Bundles are built to save money at scale, but we'll right-size the starting point for the business.

Refer a business that needs this.

You earn 10% of their first invoice (min \$50).
