

PRODUCT GUIDE — FOR PARTNERS

Platforms We Manage Everywhere your customers are.

What it is

We create and manage content across all the major platforms — so a business shows up consistently wherever its customers spend time, without juggling ten different apps. We pick the right platforms for their audience, not all of them.

How it works

1

Instagram

Visual brand + Reels reach

2

TikTok

Short-form viral discovery

3

YouTube

Long-form + Shorts authority

4

Facebook

Local reach + community

Who it's for

- ▶ Businesses spread thin across apps
- ▶ Owners unsure where to post
- ▶ Brands wanting consistent presence
- ▶ Local businesses needing reach

How to pitch it

- “ We focus where their customers actually are — not everywhere.
- “ One team produces for every channel, on brand.
- “ Also LinkedIn, X, and Pinterest when they fit the business.

Common objections

“Do I need to be on all of them?” — No — being great on the two or three that matter beats being mediocre on all of them.

“Can you match my brand?” — Every post uses their colors, voice, and style — consistent across every platform.

Refer a business that needs this.

You earn 10% of their first invoice (min \$50).
