

PRODUCT GUIDE — FOR PARTNERS

Types of Websites We Build

The right site for the goal.

What it is

Not every business needs the same website. We build the right type for the goal — from a clean professional presence to a full lead-generating engine — all brand-aligned, mobile-perfect, and live in days.

How it works

1

Service

Trades, agencies, pros — built to book

2

Local

Shops & restaurants — get found locally

3

Portfolio

Creatives — showcase the work

4

Landing

Startups & funnels — convert signups

Who it's for

- ▶ Businesses with no site or an outdated one
- ▶ Sites that look fine but get no leads
- ▶ New businesses that need to launch fast
- ▶ Anyone whose site isn't their best salesperson

How to pitch it

- “ *Starter — from \$1,500: a clean, professional presence.*
- “ *Growth — \$3,500: a real working, lead-generating site.*
- “ *Pro — \$7,500: a content-heavy lead engine, fully custom.*

Common objections

“How long does it take?” — Most sites go live in days, not months — AI compresses the timeline.

“Will it actually bring in business?” — Every build is optimized for conversion — clear calls-to-action, fast load, mobile-first.

Refer a business that needs this.

You earn 10% of their first invoice (min \$50).
