

HAZE TECH SOLUTIONS

BUILT TO SCALE. WIRED TO WIN.

AI AUTOMATION · MARKETING · WEB

Enterprise-grade growth, built for small business.

We design the systems that let lean teams move like big ones — AI workflows that run while you sleep, social media that grows on autopilot, and websites built to convert. No bloated retainers. No tickets in a queue. Just outcomes.

What we do

AI Automation

Custom workflows that handle the repetitive work — lead capture, follow-ups, data entry, reporting — so your team focuses on what actually grows the business.

Social Media Marketing

Daily branded content and growth on the platforms your customers actually use — planned, produced, and posted for you.

Website Development

Fast, brand-aligned sites built to convert visitors into leads — with AI-generated copy, deployed and ready in days, not months.

SEO & Digital Marketing

Get found, stay found, and convert. Search, local, and paid working together toward one number: more qualified leads.

Why teams choose Haze

- ▶ **Boutique & hands-on.** Direct access to our team, personalized strategy, and consistent communication from day one.
- ▶ **AI-first, not AI-gimmick.** We use the best tools available because they genuinely compress timelines and cut costs.
- ▶ **Results-focused.** We measure success in outcomes — more leads, more conversions, more growth — not deliverables.
